Quote:with 1000 credit snipers if u see someone on your screen hold k and fire and it homes in on any person from the other team on your screen..... only works when AIM bot is off

That's called an aimbot.

Quote:if u are a sbh or a stank and u fire you can hit L and it will restealth u right away

Wouldn't show correctly for other clients.

Quote:the AIMBOT is highly advanced from anything ever made. auto locks on the head of any person on other teams.

Has nothing to do with scripts.dll
