And once again you prove why you are going to be number one on the list. No flaming, no debating, just a list of idiots like you. You are going to stay number 1 for a LONG time and I doubt you will ever be off of the list. You may find this as a compliment that you are noticed, but then again, it's also like a huge fat woman showing her butt crack when she bends over. You can't help but to see it, but it sure as hell isn't a compliment to her when she notices you looking.
