## Subject: Which is better?
Posted by SS217 on Wed, 14 Apr 2004 20:21:06 GMT

I've used Windows (3.11-XP), Linux (Red Hat 9 Pro), FreeBSD, and a shitty old IMac. I can say that 2003-XP have been stable, along with FreeBSD. It just depends on what you want to do. Windows = Gaming *nix = hosting OS X = editing
