xptekAlkalineyou are a bullshitter,
the biggest bullshit that you made recently:
"I designed all the desgins on liquid2d.com"
 :rolleyes:

b.t.w blazer, crimson edited the records, belive what you will :rolleyes:

Would you like a PSD? (I'll give you a cheap template and put a nice watermark on it)

Alternatively, you could just ask Seren, she has quite a few (50 methinks) that I gave her.

You may have bought them retarded, doesn't mean you designed them I emailed the designer
team, and I'm waiting for thier reply to expose your bullshit yet once again.

do I need any more proof, just lkeat your own server's site it looks like shit :rolleyes:
