I got a couple e-mails one says it is from AK and the other one says it is user info . . .

They both have the same attachment on them, they are written in German I think . . . the

"Norton AntiVirus hat folgenden Anhang entfernt: pass-message.pif. Der Anhang enthielt die Bedrohung W32.Sober.F@mm."

What does that mean? This is just a text document so I had no worries of viruses. I just wanted to know

1. Why did both e-mails have the same attachment?
 2. Did anyone else receive these e-mails?
 3. Why did I receive these?
 4. Is it truly from AK?
