Cpo64K9TrooperBTW. France wouldn't be a country if it wasn't for the US.

Ok now, what makes you think that? I mean WTF? Are you talking about WW2? Yah right, who joined in during the last year of it? You would not be a country, none of us would, if the US did not help France and the Allies. If the US did not help? Hmm? I would hope your ancestors are Arian in that case. Do you realize how close the Nazis came to developing Nuclear Weapons?

Freedom Fries! For lords sake! They arn't even frence, and I thought the Canadian Government was childish.

Sorry, sorry, I lost control there. Everyone is entitled to there opinion, I am sure.

I think you misread my post. :rolleyes: Both WWI and WWII the US came in and saved the day. Both times France was under German control. I don't know where you all say that the US didn't enter the war until the last year of the war. Germany declared war on the US on Dec 8th, 1941. We had troops and the Navy and Army Air Corps in Europe almost instantly.
BTW I am embarassed about the "Freedom Fries". That was lame.
