bigwig992I'm interested and all, I just want to see a lot more screens and preview movies .

I see several things coming up...Orca Lift Truck, Raveshaw, Cargo Truck, Hummvee, Combat Knife, M16A2 and M203...

AprimeI'd be helping right now, but I do not want to work with someone like Genocide, so forget it.

Meaning if he models for Commando DOESN'T mean that you have to work with him.
