Deth7JavaxcxDo you get away scott free if you try and kill someone and fail? Idiot, you were trying to hack someone's account, you failed. It doesn't matter what DaveGMM banned you for, but if that happened a while ago, consider him being generous he let you stay THAT long.

I didn't even try to. I just threatened to do so unless she shut the fuck up.

You didn't even try to huh? And I quote:

Quote:The feds will not get on me, I didn't do anything. All I did was post a pic of a Brute Force hack on C4Kitty. That doesn't indecate that I am doing it, it was a threat, not an action, I turned it on, took a pic, then I turned it off. Just letting her know i'm not stupid. Besides the only thing they could do is if I did hack her, attempting cannot be proved, and I did not and I will not waste my time, it takes up to much BW and Comp Memory. And as for the pitts sending the feds on me the least thing they could do would be to call my ISP for an infraction involving the changing of IPs. But I didn't change my IP I just hid it, which is not illegal, the least they could say is for me not to return to the website. And as for being the l33t haxor, I admitted I was not go look, I just have the tools for the job, I know very little about hacking. Im not stupid you cannot trick me, and I have committed no infraction. Thanks

Note this part of your resoponce...

Quote:I turned it on, took a pic, then I turned it off. Just letting her know i'm not stupid.

Think you just screwed yourself there.
