Majiin Vegetasnipers tactics that i have observed from those really elite players :rolleyes:

cheat

warp exploit

glass shoot

glitch the 500 snipers only scripts to get a Ramjet on a deadeye (dont ask me how but it is possible)

clickbots.. with coloured skins are more common now

dont forget about the OBVIOUS type kills..

refilling while fighting..

spawn kill

theres your average sniper these days in renegade..

if you can master all of those.. "skills" your elite :rolleyes:

I dont do any of those and im elite. hehe but then again, you and me are "original" and "real" snipers who actually kill people, do good for our teams, and don't just point where off tanks.
