Yeap.

That's also how Neo was able to see outside the Matrix, after Smith/Bane blinded him. Since he did have "the sight", as the Oracle referred to it. Though the Wachowskis didn't go to great lengths to explain that connection.

I've actually been thinking of these theories, of calculating the future, on my own, before reading any of the books. It was really great to see that people such as Isaac Asimov and Frank Herbert, and many others, thought of similar things.
