DarkFishThose cartoons...so funny, and so true :rolleyes:

If I were Renardin, I would follow my own advice and just ignore Ack. Work hard on Reborn, and prove him wrong by releasing a high-quality mod.

That's fine and dandy... Except any time anyone tries to get him to do better, you receive "I'm only doing this for fun" as a response.

Basically a big "Fuck you, I won't make this better" in disguise.
