Cpo64Ok then, Vietnam, I won't mention that one then. How about The War of 1812? I am sure there are others, but at this time I do not have time to research them.

The US didn't lose the War of 1812. If we had we would now be part of Britain. We lost a lot of battles in the War of 1812, including the campaign to capture Canada, but ultimately a peace treaty was signed that ended the war without a real loser.
