shifty[nash]hmm will people be able to walk on the boat? when you press E in renegade you stand next to your vehicle. when you press E in a boat you would fall into the deep sea and die :S

You can't walk on it because of the world box. You can't walk on any unit that is moving.

Also, you don't press E. If you do press E while you're in the middle of the ocean, then you're retarded.

Sir Phoenixx and Aircraftkiller did a nice job on the Destroyer. I'm sure boats are really hard to model and texture.
