UberfahrExcellent! If this CP1 is released in a closed or public beta, I would like to participate.

Quote:team - Force team change of specified player. Usage: team <team id> 0=Nod 1=GDI 2=Neutral

Hmmm. In order to move noobs into the other team or stack more and more pros into the other? Looks exploitable too, and we already have so many moderators who abuse their powers.

I will modify brenbot that !teams will use team2 when evening teams.

But brenbot will have this forceteam command too.
