Nice try crimson.. but you left out the "most important" lines, which show exactly what genkozar was really refering to.. Here, let me help

Quote:[13:06] [@GameBot]: [15:10] scythar: This was RG but it was causing issues...
[13:07] [@GameBot]: [15:10] genlkozar: renguard causes skin cancer too
[13:08] [@GameBot]: [15:11] genlkozar: servers crash all the time, then when rengaurd comes out everyone blames it on renguard
[13:08] [@GameBot]: [15:12] htmlgod15: yeah seriously
[13:10] [@GameBot]: [15:13] genlkozar: rengaurd made my wife leave me for another man
[13:10] [@GameBot]: [15:14] genlkozar: rengaurd assassinated Kennedy AND Lincoln

Someone asked if the server was running renguard,
Scythar said "it was, but it was causing issues"
at which point, genlkozar began in on us about how we are basically "full of shit" and the jokes began.
