Uhhh... I'm not his MOTHER, I'm his sister. I apologize on his behalf for the embarrassment you endured by his inferences, and I apologize for not educating him on the particulars. However, I spend little enough time with my brother and I'm not going to sit down and go over every server on the list and make sure he only makes fun of the ones that suck.

My brother isn't interested in anything except killing people in game, and that the people killing him aren't cheating.

And as far as ACK goes, he wasn't paying attention to the start of the conversation, he just saw people joking about RG and joined in, and he stopped when Jarhead asked him to. Unlike people in IRC, players in-game can often miss parts of conversation when they are busy actually playing the game, therefore I find no discipline necessary.
