spoonyratmahkraI wanted to just have infantry wars until more people joined. And I DID actually tell you that.
Try f2 next time smart guy :rolleyes:

Actually, "smart guy," I remapped the chat commands to enter and backspace. I don't use F2 or F3 or whatever they originally were. And in addition to saying things on all-chat, I paged you and told you to stop. It's not my fault if you weren't paying attention.
