Ok let me explain
i am @ or + on an irc server and when i !atm Script-Master then i get this AddTempMod Error:
Script is not unique..
mayby its couse of the - also my friend his name is Master-Script

so there are 2 Script's but i type the whole name can this be fixed ?

It's because of the "-" in your name; BRenBot doesn't like non-alphabet characters. I'm not sure if
that can be change, but post on Mantis to ask

Subject: lol cant
