I tried searching for these but the keywords i put in are in almost every topic so it is hard to find the right answer

1. How do I put a harvester in, and do I have to give it a path to get to the tiberium or does it go automatically
2. Whenever I select Build Dynamic Culling System, Commando crashes. Am i doing the final steps in the wrong order?

Thanks

1. Yes. Look to <http://www.renhelp.co.uk> for instructions.
 2. Don't know, sorry.

Well lots of "First map tutorials" cover setting up the harvester.
