If you've been wondering what I've been trolling around lately it's not because I have a problem with you. I just needed to please the BC admins to get this:

BCF: [http://\\*\\*\\*removed\\*\\*\\*/BCF.zip](http://***removed***/BCF.zip)

Dragonade: [http://\\*\\*\\*removed\\*\\*\\*/DA\\_a11.zip](http://***removed***/DA_a11.zip)

DS: [http://\\*\\*\\*removed\\*\\*\\*/DS.zip](http://***removed***/DS.zip)

Note: I didn't upload these, just found the links on my SM computer.

/me laughs

Take this shit off. I want to know how you'd feel if you worked on something for months upon months just to have some jackass post it and let everyone use it. Do you know how much work was put into that? How many hours? More hours than you spend sitting on your ass watching TV, looking at porn, masturbating, combined.

Don't you guys have any fucking hearts? Any souls? For all I care you can go to hell.

You guys are fucking assholes. I never thought that n00bstories was like this, but it seems they are. Not that it matters, but if you don't take this off, I swear to God, I'll leave the n00bstories community all together.

I now see all this time where Black-Cell was coming from. About how this entire community is nothing but a bunch of little immature kids.

So: Fuck off. Remove it, or go to hell.

Also, I don't see why you're saying n00bstories is "like this." I'm not n00bstories, just a member.

I hope someone comes to your house and beats the shit out of you tonight. I really do. I now see why you all spend hours and hours on the computer. You have no sense of right or wrong. No sense of how to get along with anyone. No respect for anyone.

Well you know what, just because you won't amount to anything in life... never get married, only have your little "online friends," don't ruin someone else's hard work.

So people should treat them kindly and respect their work, even though they already tried stealing from n00bstories, already slander it and its occupants, lie, cheat, etc... Why should anyone be nice to them?

Ever hear that expression "you reap what you sow?" This is exactly what they're getting for what they did in the past, trying to steal RenGuard source code and run with it so they can put it into that DS garbage as their own "anti-cheat."

It may not justify xptek's actions, but this time I agree with it, and they had it coming for a long time.

Just because you all don't like BC as a hole. Don't hurt a few people who did all of this editing (vloktboky, Whitedragon...). What the fuck have they done to you?

They both condoned trying to steal RG source code. Vloktboky wanted to steal it, WD rationalized the attempted theft of it, and the rest of them had nice little comments like "lets get blazer and crimson fired from cisco, yeah lets fuck up their lives!"

WD: He had his damn FDS setup wrong and it crashed my SM computer completely. I had to pay \$75 to have it all set up again last night.

Vlokt: He's not nice to me. I try to be friendly with him and he just acts like an ass.

Regarding Whitedragon: He didn't do it on purpose.

Just because someone tries to steal something doesn't mean it's right to steal back from them. Hopefully Crimson will wake up soon and remove the links.

Of course it does, because if they had the chance they'd have fucked up the RenGuard project for everyone. Eye for an eye in this case fits perfectly, given their track record of being lying thieves who have no respect for anyone, not even each other.

I am at work, and I was in a meeting when all this stuff happened. I am removing the links even though apparently Black Cell wants to DDoS these forums or something. I don't know. It's all dumb. xptek isn't staff of n00bstories... and these forums aren't n00bstories either.

I don't really approve of the release of the code... I haven't seen it, I didn't post it, and I didn't obtain it, but I don't really have sympathy since everyone knows BC rarely shares anything with anyone.

Anyway, this thread is locked. Please end the discussion. I don't want anything to do with this.
