If you as a server owner receive donations for your server take half for your server costs and donate half to the Renguard team. Ohnouser has adopted this rule. This is only a suggestion. Remember Cheat Free is the way to be!

What about their server costs? I don't think very many servers get any "extra" money.

Not many, but I guess the really popular ones might have a little extra every month.

I have about \$-350 a month extra... so that's not going to happen.

well

I have tried renguard and my servers were 0 all day. I even treid staying in their for 30 mins even with 1/24 no one joined .

If anyone that needs to get donations, its server runners for running renguard from the renguard group! lol ok ok joke...

but when you run renguard, you will not have people playing and will not get any money.

TonyMontanaeven with 1/24 no one joined .

If no one joined it wasn't a Renguard problem.

If people joined then got kicked for not running Renguard you *MIGHT* have a legitimate issue.

Hmm, I guess it could work for some server, but we fund our own server so no extra money.

Also, we only started this server friday, and it went up on WOL without renguard and was getting full within minutes. We warned people, telling them where to download it ect, put renguard on, and the server had a maximum of 4 people in it in 3 days. People joined, but were kicked for not having it, and so just went somewhere else. Its sad, as im all for renguard, and we will try it again soon, but for now we are going back to the "request screenshot and ban if none sent" way of doing things.

That is sad One feature of the upcoming BHS core patch will include a new fds command "pamsg", which works similar to the "amsg" command except that it is sent to only one person. Using this pamsg before kicking someone for not having renguard will greatly help the person see what renguard is and where to get it....anyone who has been kicked knows that there is little to no time to see the kick message, sometimes when you are kicked you just get "gameplay pending" and then disconnected. I believe the pamsg will greatly help reach all the people who get kicked and "don't know why". It can also be used to send a message when they join if they do not have renguard. Since they MUST click OK to make it go away, there is much more chance of them reading it.

Any chance of a regular "page" command that can be done from the FDS that works for GSA players?

gibberishTonyMontanaeven with 1/24 no one joined .

If no one joined it wasn't a Renguard problem.

If people joined then got kicked for not running Renguard you *MIGHT* have a legitimate issue.

no people joined, then it said you need renguard... they got kicked
I went through my whole rotation 2x like this...

I don't understand why no one is using this program

Well I fund my own server straight out of my pocket and once in a while I get a donation. Out of these donations I take half and give it to RENGUARD and I keep the other half. Yeah it's costing me money but I will do anything I can to help RENGUARD along. I don't want to play with cheaters again. Gameplay before RENGUARD was a nightmare! The money you would be donating to RENGUARD is a drop in the bucket compared to what the RENGUARD team has already invested. So if you like playing cheat free as I do. You should do everything in your power to help them along and make sure that RENGUARD is a success!

CHEAT FREE IS THE WAY TO BE!
