Some of you may know that a long time ago AudiOwNsU used to be in the TwA Clan. Well it seems for some reason she's being a bit of a b*tch to anyone who pisses her off. Due to a mod kicking her off the server and allegedly kicking other audi members, she has threatened to hack the TwA Clan password for WOL. She also claims that she has the fastconn admin passwords

Proof that she is indeed "xfregelx", she also uses the WOL nick "TwAAudi" when she wants to piss TwA off..

81.165.186.*** <<< IP address

[00:42] * xfregelx (lalalalla@mls-366693B4.kabel.telenet.be) has joined #moonlightshakers
[04:30] * TwA_AuDi (lalalalla@mls-366693B4.kabel.telenet.be) Quit

^^ logs from our IRC server a while back when she was in TwA.

Anyway, continuing..

Ok here she explains why she's in such a mood...

And now she implies that she's going to make Charmed's clan suffer just because of some moderator issues ?!?!?

Ok now i think this is the proof that she is capable of obtaining people's mod login passwords for renegade. I haven't confirmed yet with any fastc0nn mods if they're real, because the ones i found on the list were AFK :/

And now she's attempting to do it to TwA.

here she names those whose passwords she will try to obtain. I have reason to believe she has also attempted to hack WOL usernames in the past.

Good suggestion, except they'll probably be a little bitch and pissing before she goes away as she tries to be dramatic.

You do realize that all you have to do to get a wol password is run brute force on the name, get the encrypted password, and then decrypt it...(Yes, it's that easy) Also, the identify p/w's fastc0nn had for the mods...Anyone who had access to the admin channel can get those...meaning all mods can see all the p/w's. Anyone of them could've leaked them out, plus "trusted" people were allowed into the admin channel before it was locked. You guys, as usual, are looking WAY to into

this...AuDi is picked on more than anyone else, always wrongfully charged. Lighten up. Threats are made by just about everyone, this does not mean they're true, get over it.

I had a little chat with her today. Apparently someone at renstation posted all of the passwords in the forums, and she grabbed them before it got deleted.

Did some research on audi.

as I know she has 3 accounts and within one email.

audiownsu xfregelx fearcom2u
<http://www.n00bstories.com/image.view.php?id=1170554153>
I also know one more way back in an old clan I was in. ooaudio

She also owns a clan full of audies :rolleyes: and a site called audi-stars.net

In the picture you notice how did you get there? Don't you need to know some personal info to get this? Yes its true, I cracked audiownsu a long time ago. Wasn't hard I did it by hand the first try. The rest xfregelx and fearcom2u I did by brute. Also pathetics pws.
