can someone list some/all of the different presents (eg.M00_CnC_Crate) for the old scripts.dll and maybe some help on how they work?
If someone does have the scoruce code for the original scripts.dll, please post it!!

Losts of thx,
-Plague

The origonal scripts.dll source code doesnt exist.

As for details on the origonal scripts, there are so many, I know what a few of them are for but not many.

If someone wants to know about a specific script, you can contact me on AIM/ICQ/MSN and I willl try and help.

Thank you very much
It's nice to see that not *all* people are too stuck up to help
