I thought I emailed you that it can only be changed by editing the game.exe file (Correct me if I'm
wrong). :rolleyes:

Unless you are making a mod, don't bother.

As far as I know, unless you were doing it for a mod that is in expansion pack format, it won't work
with Renegade online.

I have changed a game.exe from 300 to 9900.
Do a search of these forums for a topic called RenAlert View Distance or something like that, it was in there I learned how to do it.
