One day I logged in to Westwood Online to play Renegade and what do I see??? I cant join any server, because my game version is wrong. Now, I understand that I need some sort of patch to upgrade my game from 1.20 to 1.36, but I HAVE NO IDEA WHERE TO GET A PATCH. If there are any kind people, please notify me about the location of the Renegade patch download, as the RenGuard readme file says, I need version 1.36 before installing RenGuard. So...please..

Correction: It's patch version 1.037, not 1.036.

EDIT: W00t, 350th post = COMMANDER.
