I have no idea whats up with Renegade right now

i played it yesterday logged off, 5 hours later tried to play it and it just showed the Renegade logo and then nothing, the disk continues to run then nothing.

uninstalled and reinstalled it nothing.

same problem with RenGuard

it shows renguard then it pops up the Renegade symbol, few seconds later back to the RenGuard screen.

any1 know wtf is up with that ?

done all that

uninstalled - reinstalled renguard.

repaired it the whole bit, i dont know whats up.

and i havent changed anything on my comp recently
