Hey All!

For those who have heard about the new Xmas map I am making, named Snowfight2004 (to follow the 2003 version).

Yes, name says it all doesn't it?

You are there in the battle field, Glacier mountains, nothing but Ice & snow battling for ownership of the area.

In the 2004 version you will see no WW buildings, only some basic, but cool custom ones.

You will encounter some of the fanmade & never added vehicles, such as the E3 Flame Tank, E3 Recon, HumTOW, HoverMRLS, RA2/Ren2 Mirage Tank as well as the current Ren Vehicles (mammy is now stealth just for fun)

Enough of the full description because I got to get to bed in like a minute, but..

I am posting this to ask if any member of the Ren Community would be willing to provide Snowfight2004 a place to sit in their webspace?

The more hosts there are, the quicker the word will spread and people will download the map out of fun (which is what it is). If ya get my drift...

For those of you would like a sneek peak before its release, check out this video I made not so long back in WMM2. I'm no expert in Video creation, but I hope you'll enjoy watching it. Also, ignore the Eastenders theme tun when all goes quite at the beginning, FRAPS somehow picked up on the microphone and recorded that aswell as the in game sounds

<http://conquerworld.me.uk/SnowfightTour.rar>

So if you can host it, email me at webmaster@conquerworld.co.uk

Please note that it isn't released YET, but the BETA for my testers will be this week

Many Thanks,

Andy.

Bring Renegade into the Xmas Spirit

I'm talking bandwidth. I don't mind hosting it, I just hope you realize that we don't have that much bandwidth. Although I doubt that his map (along with other mirrors) will use up most of our bandwidth.

No, as I said, the microphone some how conflicted with FRAPs whilst recording
Wasn't my intension to record Eastenders, but thats life

glyde51i'll host it, I don't feel like e-mailing you though
THANKS!!!!

CrimsonI can host it.
GREAT STUFF!!!

If I can make a little request if you don't mind me asking & being cheeky... But...
Would it be possible if you could make a new post on the RG news page, just so that the map gets a lot of publicity and gets everyone into the Renegade Xmas spirit? Much appreciated

ScampDigital Depiction can provide you with a mirror if needed. PM me and I can provide you with somewhere to upload it to.
If its not too much trouble, if its going to cause some confusion, don't think too much of it

Its been like 8 hours since I posted the 1st post and 8 replies already. Thank You all so very much!

I have two servers that are capable of 100 mbits. Only one of those servers has handled about 8000 CP1 downloads in a week, and that was 30 megs.

Will you be taking measures to try and balance the sides with these new additions? The idea of a stammoth is quite... well... risky.

in my opion, snow is one of the best atmospheres for a game to be set in, this map as long as it don't have like Santa clauses EVERYWERE (and even if it does) will still be played by lots of people if its good.

Do you think it would be better if the Mammy did the same amount of damage as the Stank?
Same armour too...

I'm not really the one to ask about balancing issues, I have been playing the game for about 5 months, others have had it since the day it came out.

I would ask modding teams especially since they have more experience of the matter. Aircraftkiller, for one, could help with this matter. And know knows, if your map is good enough he might even want it included in renalert!

But still the idea of a stammoth is risky. So I would consider it.

Glad to see someone taking interest in what the community wants instead of just making

something and hoping they like it though, good work!

Well, with the map layout being like below:

```
=====
GDI =====Nod
BASE=====BASE
=====
```

(in other words an head to head map)

I have put the whole B2B situation at top priority to control.
Which I have.

the MRLS, Arty, Gunner, Rocket Soldiar, Sniper, Havoc, Sakura have all being eliminated just so its not a base camp fetish of a map.

What I 'might' do to get the stealth tank & mammy equalised, is to give the mammy the Stanks weapon, and likewise, the Stank has the Mammys weapon

Would be interesting to see how that works out.

Powerful Weapon & Weak Armour & Fast & Small (stank) vs Not so Powerful weapon & Heavy Armour & Slow & Large (mammy).

Lets face it, the stank will have a better job than any, I mean, lets face it, who wouldn't spot a Stealth Mammy Rush?

Its all for fun anyways

But if anyone else has a better view or idea, please share!

Hurry though, the BETA for my Testers is this week

C ya

Andy

Personally, I think that the idea of a stealth mammoth is not the best idea. Perhaps, making a stealth medium tank would be better. Or making the mammoth's health and armor the same as a stealth tank. Also, the idea of no snipers in a map seems pointless. I agree with no MRLS or artys. But snipers can be picked off much easier, and they don't damage buildings for unfair B2B advantage. That is just my personal opinion. Either way, I hope this map is a success.

The snipers will be able to camp very easily.
IMO it isn't the best idea, but as I say, there is an upcoming BETA test, so we'll wait for the results

Oh, I just added a new feature!
<http://www.n00bstories.com/image.fetch.php?id=1177025120>

After loads and loads of attempts, I have finally got working snowballs to fire!

Quite pleased with myself at this moment in time

Just to inform you that the BETA is now complete, just need to flood the world, I will release this to my BETA testers and we will be testing it as a group on Sunday afternoon.
All suggestions in the session will be made afterwards.
Hopefully released as a public release on Monday Night (work during day)
I will upload the map to my webspace (conquerworld.me.uk) and email / PM all the people that say they will host the map.
Then it is up to them to post the sources for them in a new post I'll make here

Keep ya updated

Andy
