Heya!
Just thought I'd inform you that Snowfight will be released tonight!
There is no official time but it will be released tonight!
There will be no download link from me to begin with, but there are like over 7 people offering to host the map, so after I send the email to the guys who said they would host, I will post a mirror on here.

The people I will be sending an email to are:
-glyde51
-Nightma12
-evanscnce
-theforgottenwarriors.nl
-TFWOfzo

The people I will be PM'ing are: (if you want an email sending to ya, provide an email address)
-Crimson
-Scamp

The first server to host this should be TFWCrash1 on Euro. So, have fun

Snow Tuned.

Andy
