When I try to start Renegade, renguard displays "Failed to start renegade".
http://img.photobucket.com/albums/v334/dwergie/failed.jpg for a screenshot. What can I do about this?

Check if your renegade directory has spaces in it.. there is a problem with version 1.03 and spaces in the renegade dir

Move your renegade dir to c:\westwood\renegade for example.. it'll work
