You got fucking owned.

Victoria Parks of Columbus, Ohio, left, weeps upon hearing about the Democratic challenge of Ohio's 20 electoral votes during the Defend Democracy Rally and Vigil in Washington, Thursday, Jan. 6, 2005. President Bush (news - web sites)'s re-election triumph over Sen. John Kerry (news - web sites), D-Mass., was not in jeopardy, but Democrats turned Congress' quadrennial counting of electoral votes into a battle over Election Day problems in Ohio, forcing the House and Senate to consider a challenge to the presidential count for only the second time since 1877. You know how the world universally coughed up Ukraine's exit poll numbers and made them re-do their election?

Ohio's exit polls were even worse.
