You seem to have a mp3dec.asi file that we not recognize it.

Download this:

<http://www.blackhand-studios.org/cp/mp3dec.zip>

I don't know how many times I have said this

YOU NEED TO UPDATE TO Renegade 1037 before Installing ANY Blackhand Studios product!

So.. reinstall Renegade, update to 1.037, and then download RenGuard. Not the another way around.
