Renegade, simply beacuse it has direct characters. In TD and everything else there really arent "people" people.

But seen as though it isn't in the list, Tiberian Sun.

Tiberian Sun has direct characters too. Their names I don't know right off the bat -- but they're characters that make quite a lot of appearences.

I would say Red Alert too, just because it was really the start of the CNC timeline. (Even though it wasn't first) Other then that, I think that Renegade would be good.

Red Alert 2 would make the worst movie imaginable.

The thing about Red Alert 2 is, for a game (or potential movie) you need some really evil bad guys. Kane = evil. Stalin = evil. The Soviet Generals in RA2 were just made to look like idiots, though Yuri has some potential otherwise

ID say they should make a mini series like TAKEN on sci fi but utalizing every singal game's story line over a period of 12 hours. Each episode being 2 hours long and shown every day at the same time over a period of six days. Like it would show all the ppl and how they like shaped the world and stuff. It would be fun.
