I just got a new comp that aint that bad and i installed fds and i installed rg and i set up mirc and
set the brenbot and when i try and start it some times it works and most of the time it tells me this

pera.exe

there is no disk in the drive,Please insert a disk into drive \device\harddisk\dr2.

keep in mind this is a new comp so im not shure if its a rg problem or a comp problem.I searched
the forums and nothing plzzz help!!!
