This pisses me off. The other day I played a clan game with the clan with a member called h2halo and karmia. We lost big time. Then in the chat room this guy names GOTHICBAM was showing us that he can flood people. Then my friend told him to flood the clan we lost to. He flooded them. Then someone hacked me and put in my buddy list:

You  
told  
them  
i hacked  
you  
for  
that  
you  
lose  
your  
clan

Whoever hacked me deleted my clan! MY CLAN IS GONE!!!! We had 29 wins and 4 losses! ALL THAT WORK AND ITS FUCKING GONE! Is there any way to get my clan back? It says the name is still in use but it cant find it when i search it up. HELP!!!!!!!!!!!!!!1

So you (your clan) attacked, and and some one goes after you, and you get a royal kicking.

What's your point?

What goes around comes around.

So..

Er...

You told him to flood them (an experiance I used to have)...

And then you got "hacked" (Let's all be clear. You didn't get hacked, your password was acquired. BIG difference).

I don't see why you should get ANY sympathy here. You've basically gone "We did something wrong first, yeah, but THEY DID SOMETHING WRONG SECOND! YEAH! PUNISH HIM FOR... er.. OUR MISTAKES!"

Woo. Yeah. You go tell people to flood some more. See if that makes you feel better.

I am not gloomy. I like the rain. It means allot to me.  
And thanks, i like it too.

Every time i'm board, that's most of the day, I like to do tutorials and learn new things to do in photochop and flashmx. This always ends up with me making new sigs and avatars (I have a folder full of the bloody things). rain isn't hard to do. I used photoshop-cs and image ready.

The reason it looks a bit strange with the right window is because I originally intentioned to put a movie giff there ( was planning something along the lines of the ring video). But this forum doesn't seem to like large giffs, so i had to change it. I will change the boarder as soon as I find a good broken wood (Like an old window) tutorial.

I think i will try making the next one in flash, but me and flash aren't talking right now.  
It knows why!

If you want to rain tutorial I can post up the link.

or pm or whatever. You should be able to mod it to suit what ever graphics editor you use.

And as long as you are logged on to ZOMBO.COM anything is possible.

Dude f\*\*\* gothicbam, hes not involved in this n00b. The point is and read it this time. You and your m8s (w.e in the clan) said that I (PrOSEAL) flooded karmai and his clan. You lied to them, and took the blame on me. I don't allow that, and f\*\*\*ed your clan was. And is if you continue.
