A friend of mine a little while ago told me about how he heard someone say he was stuck in a traffic jam, and in disgust he said "dam lag", i thought that was pretty funny.

Also the other day at work I called someone a n00b at work, they didn't know what the hell I was talking about, I felt like a right fool.

pretty funny quotes, some are a bit lame tho.

It needs some fixing up in the English department, and some definitely need fixing up in the humor department.

Truthfully, when I've been overtired and played too much Renegade during the past couple days... at night I've been scared of SBH moving in the stairwell. I always get either hyper or paranoid at night, so it's not an unlikely thing for me to be nervous.

Oh god... Most of those im probly gonna do soon. Especially the unexplained deaths one, and the mining your room when you go to bed one... Of course, they would have to get IN my room in

---

order to set off the mines, and thats damn near impossible to do, and still stay all quiet and stuff..

142. When youve been playing for two years, and you still cant get but two god damn recs on those damn RG servers! (Most i ever got at one time. Now a bunch of idiots have !noob commanded me, and im at -5!) (That one didnt make so much sense, let me think of a better one...) 143. When your car gets stolen you start yelling "Destroy that Vehicle!" and "SBH! SBH!"

144. When your alarm goes off, you yell "CHECK THE WF AND REF AND BAR AND PP(Con Yard in most of AircraftKiller's maps aswell)! FUKING NUKE SBH!"

We did this as well on the Da forums.

1. You think everything in the game is real.
2. When you have dreams about the game
3. Every 35 seconds you get accused of cheating.
4. You start thinking about what character you would be in real life for the situation you are in
5. When playing an RPG you worry about being "exposed to sniper fire" when standing in an open space. (This actually happened to me )
6. YOu have over 100 recommendations in more than 1 server.
7. If you are thinking about it during sex
8. making up storys about the characters e.g Havoc is havin sex with sakura in a buggy

9. If you memorize the map rotation

- You start saying renegade commands instead of talking normal.

examples;

10. Get into the car then start yelling "Get in the vehicle" "Get in the vehicle"

11. Your wife points at the house and says "The building needs repair" then i say "Negative"

12. If you ever cheat on your wife and she Temp-Bans you from the house you can just get Rengaurd and she will know that you have stopped cheating and will allow you back into her server. lol

13. You get in the bed and your wife keeps saying "Watch where your pointing that".

14. Someone cuts you off and you think what you could do to them if you had a med.

15. You put c4 on your own car just so you can buy a new one

This ones a sign of being on the computer too much...

16. Now in everyday life, when you see something funny, instead of laughing you say lol. Or when your writing notes in school your using ownt, and n00b way to much.

17. You make a list of the symptoms of playing too much Renegade

Those arent all of them, but after a while they get pretty plain.

Wow, I almost read that. Then the horrendously awful spelling and grammar made my head hurt, so I decided not to.
