OMG a bmp.

These server mods are fun once in a while, but the 5000 Techs/Hotwires are simply repulsive.

You could also learn how to spell, and use proper grammar, as I had problems figuring out where things ended.

For example:

obby guns agt guns cool skins extra wepons cool harvys !fly command crates and much much more!!!

I couldn't read that without taking a good 2-3 minutes.

It should have been:

Obby guns, AGT guns, cool skins, extra weapons, cool harvys, !fly command, crates, and much much more!

The commas really add to the readability.

Though I will admit, it looks like it would be fun to play that mod, and I would if I still had renegade installed. Hard Disk Drive reformat suck.

Funny thing is, you don't give credit to the maker of the bot your using, NGSGuard. Why do you choose to rip it instead of give credit? We know you can't script...

If you can't even make it check if someone has 700+ credits when they use !fly, i doubt you could have added anything of enough value to the bot to give you the right to rename it.
