[09:48] Message from RenGuard: You have been banned by Crimson on 28.07.2005 08:39:46 for DeMoN#GW: "i have ... all the bypasses. i would show u but i thoguht what if something like this happened." guess what? It did.. Goodbye.

SEE? ' I WOULD SHOW U'

to be honest i cant even actually use he bypasses, i only have screenshots of others using them, i would show u who they were if u wudnt of banned me :/

to be honest, i am sorry 4 whareva i did

but i dont see why u be so mean to ban me for that. basically its abuse of admin powers, i didnt do anything worthy of getting banned to be honest did i? i didnt use hax, cheats, try to bypass renguard, i went to join a server and i get banned well gj. tbh i think this is whats klling the amount of servers, ppl are just getting banned for no reason. me and tec r both banned now and why? dunno but plz unban me so i can play me games?

also, as much as i like anti cheating programs, this is going to make more ppl who get banned start cheating, if they cant use anti cheat...then ppl are gona start cheating, soon the tables will turn crimson, im telling you..ppl will take rg off their servers bcoz soon there are going to be more ppl not using rg than there are ppl using it..i wud like to be unbanned, and i am sorry for what i did. i dont cheat, use hacks etc, i just have a short temper, i am aware of that and sorry, please can u unban me and wipe the slate clean?

Subject: Re: i got banned for? GJ CRIMSON?

The standing rule is.. anyone that is withholding information about renguard's security breaches is getting a ban.

You bragged about having bypasses, so the case is closed.

Subject: Re: i got banned for? GJ CRIMSON?
Posted by demon|gw on Thu, 28 Jul 2005 10:35:19 GMT

wait, i did not brag about having bypasses, and i wasnt with holding information about bypasses, if u would of asked me for the screenshots i would of sent u to them as fast as u can say pino colada. but u banned me? thats not really fair is it? coz now i cant play on rg servers and clan wars, and u dont get the info that could help u? if u would of just asked...but no u just ban me The reason i did not show u the screenshots is because of what happened to tecstacy, but at the end of the day, it did, and i could of/ and still will show u screens of how ppl bypass renguard even tho u banned me, jsut coz really u guys are trying to do a good job, and i got caught up in the wrong moment..

Quote: i could show the renguard network lots of bypasses, i have screens in my documents with all the bypasses. i would show u but i thoguht what if something like this happened.

You even admit that you could "show the renguard network lots of bypasses" but refused to show them (regardless of any unfounded "fear"). And so as mac stated:

Quote:anyone that is withholding information about renguard's security breaches is getting a ban.

You have the information, you never presented the information. That is called withholding.

uhuh...i cant show you 'how' to bypass renguard, thats why i njever posted it, i know WHo can bypass renguard is what i meant, ppl said tihnk b4 i speak, but u didnt take my bad english into account..plz can u just unban me?

We have a responsibility to the server owners of the community to keep cheaters off their servers if the server uses RenGuard. We do what we can to only allow legitimate players to use the network. If we have evidence (such as a confession) that a player is cheating while on the RenGuard network, then it's our responsibility to ban them from it until we can find and/or fix the exploit they're using. If you come in here and say "I have tons of bypasses" then you can't reasonably expect us to just LET you keep on doing it, can you?

Subject: Re: i got banned for? GJ CRIMSON?
Posted by demon|gw on Thu, 28 Jul 2005 16:36:08 GMT

but listen, i did not say i had tons of bypasses, i said i have screenshots of ppl using bypasses, i dont even no how to even install my new cooler for my cpu, my mates doing it...u really think i could hack rg if im that n00bish? gj, anyway, as i said i have screenshots of ppl using the bypasses on a cd, i dont no how the hell they did it but i was just saying...to let u no..plus i didnt take the screens, they were sent to me...they could of been done in photoedit or anything, plz unban me?

if you knew of security breaches in RG you should have sent your concerns in a PM to an RG developer, so any potential exploiters of those holes would not see them.

I think the answer to this whole topic is, as goztow said, think about how your post could be interpreted before you post it.

EDIT: I have also seen an ss of someone using bh with rg on, but I suspect the ss was edited to look like someone had hacked RG, which was why I didnt forward it to the RG team.

Yea its kinda sad that renegade has gotten to this point. That and it aitn hard to get yourself unbanned. Like seriously we try and help the game and we get treated like shit, told that we brag about ti after we give them all the info and get marked a cheater and then get flamed. Sad jsut sad you all need to leave your comp and face the real world i beat half of the ppl here harldy play ren anymore.

We shouldnt have to. This isnt something that you can blackmail us about, you should always come up front with something you think is a cheat, and not withhold it. This is why you got banned, you withheld information.

Yes, that's right... I (who didn't code the app OR the master servers) thought that a file was scanned that wasn't being scanned properly. We did, in fact, fix the bug and no one has been able to use an altered game2.exe to connect to the network since.

The "new" exploit that we are aware of and have duplicated, is similar, but NOT the same. It uses the same concept of the altered game2.exe but goes about kinda-sorta fooling the system differently.

However, no one should EVER trust someone as not cheating when they are "Idle". EVER. It's only when you are listed on a server that your connection is protected to the maximum.

Show me one app with this complexity that never had a bug or exploit and I'll give you $100. Otherwise, quit being an asshole.

I don't completely understand your broken english, but we did consider this particular exploit and we did intend to scan the file... it was merely a bug which has been fixed. They happen all the time on any software project. It's quite apparent you have never programmed anything, so you can't possibly understand. I haven't banned you because I am not a pussy who has to ban you because I can't win an argument. I'm not afraid of anything your ignorant fingers can attempt to type out, so I have no need to remove you.

No, that was directed at Tecstasy.

Thank you, Tecstasy for a more legible reply. Forgive me for not understanding what "Complexity shoudlent you have bene ontop of this already" means.

Once again, you have absolutely no clue what we deal with, what we hear, and what we do all day with regards to RenGuard. 99% of what we hear is "omg he headshot me cheat0r ban him!" and just saying "I saw someone using FR in a full RenGuard server" isn't anywhere NEAR enough to even think about starting to find out how they did it. Now that we've been provided with a starting point, we are working actively on the problem. It all stems back to the fact that you are NOT a programmer and therefore you have no frame of reference in this at all. Just your desires as a gamer.

It is true: RG sucks! Yes, because they only achieved what noone else ever could before and they do what noone else is willing to do and they just pay for it out of their own pocket, which is completely normal! And i think more people like tectasy should come here and tell them how their work sucks because cheaters have found a way passed it, which will be fixed in some days but which the RG-people should have dreamed off before cheaters even thought of it ow and they should hire Madame Trudy with her magical future reading mental capabilities.

Lucky we have people like Tectasy telling us this!

Now to get to the point: if you ain't gonna say anything more useful... shut up, plz...

Dude, you seriously couldnt tell him off about having good "english." Look at yours.
Tectstasy, your getting better with your spelling and punctuation. Add in a few commas, and you shouldnt be flamed at all for grammar.

cheekay77 wrote on Wed, 03 August 2005 18:57btw, whuts wrong with my english, i explained this that i use abbreviations and "different" words on the internet.

why do you do it? is saying "whut" any easier than "what"? Or do you just want to be like everyone else and do whatever they do.

Aside the point... If you're going to make-fun of someone elses writing you should at the very least make yours correct. It's like teacher teaching something wrong.

"You're typing this wrong. But using abbreviations and using non-words as substitutes for real words is right" They're both fucking wrong.

Also, can we like.. get this guy banned for spamming? dude posts in every topic every day and i don't think there's a time where i don't see him somewhere on the front page. Not to mention bringing back 5 year old topics

Hey i know your right about the english, but spamming? Come on, i leave this page open, so yea i post im topics, but thats whut they here for even if they are older. Theres no rule that says "dont bring up old posts" Besides the ones i bring up, i only reply to them if someone has said something in the past few days.

You bumped a topic today that the last message (before you bumped it) was on Fri, 15 July 2005 19:51
and now it's August 3rd.

And by the way. There is no rule on not typing correctly either. Does that give you any the more reason to harp on other people's english (even if yours is bad, too?) No there is no rules on it, but it doesn't make it any the more better

you said: "you know kinghigh no one here likes you"(when he was already banned anyways) I guess that solved the "problem"

Just to let you know there actually is a rule about posting to get a new rank. You registered like June and you already have 160 or something posts. and yes i call them spam because right after you said "you know kinghigh no one here likes you" someone told you he was already banned. and then you replied "o i didn't know" Well of course you didn't know - why would you need a post implying that you didn't know when we could tell you didn't know?

Actually, since DJM has been here over a year, his post count is about right. However, since ive
been since April, which is only about 5 months back, mines just a tad off. Ive got over 400 posts,
and ive only been here for five months. I didnt even post a whole lot when i first joined, maybe
about 10 in the first month.
