Use the manual report Ren league at <http://clanwars.cc>, it's better than the WOL clan system

Hmm, i am distinctively sure i was the one who said about replicating them, I have already started and have most of them done. However they will all be released at once.

Why get a screenshot when the images are already there?

They still exist. Just the path to them is wrong.

He is right in a way.

`http://renchat2.westwood.com/cgi-bin/cgiclient?live_ren_regi  
ster&request=expand_template&Template=newreg_menu.html&LANGCODE=0&SKU=3072`

has the images. So why not import them to...

`http://renchat2.westwood.com/cgi-bin/cgiclient?ren_clan_mana  
ger&request=expand_template&Template=index.html&SKU=3072&LANGCODE=0&embedded=1`

works for me.

There are only a few missing.

Thats one way to do it. The other images do exist but I cant find my logs to see where they were.  
Im going to have another look later.

or why not use a real clan system, like the one I just mentioned
