For maps:

www.renmaps.com (Dont link it, it still gives porn poppups.)
www.unrules.com
http://www.multiplayermaps.net
http://www.cncden.com/ren_ackmaps.shtml (for Aircraftkiller's maps)

This are the most popular websites and contain every map that's out there. Or click here for the Uber Mappack that contains all maps.

During game play press, F8, then type, extras, hit return
then hold ALT while clicking the 'characters' Icon in the PT

Some map makers have made their own set of secret characters (C&C_Duel_Arena and C&C_Bio have a ton of them)
