I searched many Renegade sites, but unfortunately I didn't find new Skins of this 2 files=

The ref_roll.dds (Harvester Bay Shunt -correct name?)

v_missile.dds (The Nuke missile which comes down, after NOD has nuked)

The original file of the missile and the only new skinned file for the ref roll (Created by the MX Clan) is attached in this post. So do we have skimmers on renforums.com? Please update them with new cool designs, I will be happy. Or just tell me where i can find some new skins for this.
