#1) If he's worried about his name getting publicized, then contact a member of BHS directly. I'm quite sure that if his intentions are honest then no harm will come to his name.
#2) Having a screenshot does not tell BHS how RenGuard was bypassed, assuming it's correct

An unaltered screenshot, in third-person view?
An unaltered movie, perhaps?
Or... instructions on how to bypass (sent privately to BHS members)?

Take your pick.

WE NEED A SOURCE CODE TESTCASE FOR THIS EXPLOIT. PERIOD. WITHOUT IT, BHS CAN DO NOTHING FAST.

As I said, this is nothing more than FUD.

Come with proof, please, via PM. This is not the right way.
