just bumping the topic ,, I NEED HELP FAST! thanks in advance for anyone who tries.. here is more detail:
im so pissed right now... i was playing renegade and my comp completely froze so i had to restart... ever since i restarted it shows the load "renegade" thing and then nothing happens.. i cant get on to anything with renegade.. i reinstalled uninstalled tried using new bandtest.dll nothing is working or happening.. PLEASE HELP ASAP! if you know that buying a new renegade would work.. im willing to do so and also if the discs i have are now garbage.. and if its unfixable.. my aim is whitewlf902.. post or im me or email me at whitewlf902@yahoo.com PLEASE HELP
