Go into the options, and disable the Core Patch updates. Then download and install the standalone:
http://download.renguard.com/standalone_cp1.zip
or
http://download.blackhand-studios.org/standalone_cp1.zip

Once it is installed, you can renable the Core Patch updates if you wish.

It takes 1 minut to get to the link:

 ftp://ftp.westwood.com/pub/renegade/updates/Renegade_1037_En glish.exe

Don't be lazy.
