Nice! Doesn't include most cities though, looks very US-based app. Interesting nevertheless.

Yeah, it's American orientated... but atleast it supports the rest of the world.

Had to stick myself about 130 km west though. Oh well, that's the city I study in, so it's not that incorrect.

Wow, two people in n00bstories live very close to me:

SencneS lives in Zeeland(about 20 minutes from me)  
Traingye lives in Grand Rapids(10 minutes from me)

Ironically, I've never seen either in game to my recollection. Maybe Ive seen Traingye before.....

Good Idea, but= I see that MP Clan, n00bstories and renforums.com (and some others like Unrules) have it's own frappr Map... OMFG

I made the official Renegade player map as an all-in-one. In my humble opinion, this is way better than splitting the community in many pieces. There are enough forums about Renegade and it seems to be trendy now to have a bunch of maps (each serving the world!). I think one central Map is enough -isn't it?

BTW, Adolf Hitler is also on the Renegade publicforums USA map. I honestly don't think he is playing Renegade... LOL. I will look on mine regularly to avoid spammers like this.

My Map is now posted on 8 german forums, here and I will continue to Warriornation and Unrules now. On my map people can choose between red and orange Pins. This will specify whether if your loyalty depends on GDI or NOD. But you can just leave it pink as a neutral Pin too.

Please understand my thoughts, I'm tired of surfing to hundreds of sites to gather information about Renegade and it's community members. You others should agree to this. Thx.

CCR Map -that's it!
