Ok, I can login in but when I do no servers are available and it comes up with valid nicknames =/.
I'm connected via the xwisc nextwork so I really don't know what to do.
This is what it says:
Login to XCC online failed!
Invalid nickname (SID: 924)
and then no servers appear...
I myself am clueless so it would be nice if someone could tell me what's going on.
Or is this the end of my renegade career?!?!

Well, I don't really know, but that INVALID NICKNAME sounds like it could be a problem.

As in, change your nick.
