My FDS always keeps telling me that "Total crate percentages are at 0 instead of 100. Using default settings" or something like that.

Anything else works, but when I put my mod package in, my FDS just keeps restarting.

Change the SSAOW crate's total percentage so it adds up to 100% then

Theres something you have to do first before increases crate percentage. I'd tell you but i dont know.

There was a problem with one kind of crate, if you changed its percentage, the system thought u used more than 100 %. Use the search function, there has been a topic about this.

Yeah, I posted that. It said the total was 104%, though I am pretty sure it was 100%. I've rechecked it several times.
