I'm using Windows XP SP2 and my Renegade is installed at C:\Ren\

How can I get rid of this error?

I'm getting the same problem on one of my other computers. I'm stumped on how to fix this.

I'm running windows 2000.

I'm running windows 2000.

Renguard does not support running on Win 2000 and 64bit OS.
