My new site is on-line. (For awhile i hope) if you are looking for some help with making maps/models/skins/anything with 3dsmax or gmax and renx and you need help visit the site!

And if you are looking for a place to host your map we do that
We also host models/skins so if you need a host for something come and visit!
and if you submit a pic for a download make it under 250x250

Paradox, I dont think it needs a scull background. Take the renegade r and make it a dark grayscale.

Umm actually, DarkAngel didnt make that... I made it for him, notice the Renegade-Ops button at the top. And he was NOT suppose to give that layout out to anyone... Im going to have to have a talk with him...
