When I load renegade renguard does not start up like it did before in fact it doesn't load at all! I
have tried to reinstall renguard and it says file already exists. I have searched the entire computer
several times and can not find renguard. What do I do.

Try the manual method to install RG that is detailed here:
 http://www.renegadeforums.com/index.php?t=msg&th=18641&a mp;start=0&rid=2

After you are done, here are the file sizes you should have:

07/07/2004 01:07 AM   361,472 game.exe
01/28/2003 11:49 PM   5,397,365 Game2.exe

game.exe is Renguard. Game2.exe is the renamed Renegade.
