I have a friend of mine who has a German version of Renegade. With the install of Core patches, all text is now english but the voice still german. Which files of my English version do I need to give him so all his voice files would also become English?

I'm guessing always2.dat, but I'm not entirely sure about that. All of the text is in strings.tdb so it can't be that.

Btw if your friend wants his German text back, he needs someone to send him the German strings.tdb file.

The Strings.TDB file he had before he installed CP2, open up the pre-CP updated German always.dat with XCC Mixer and extract the Strings.tdb file to your renegade/data folder.
